

## Feafures

- M12 connector with IP67 rugged housing
- Complies with EN50155 \& EN50121-3-2
- Up to 12 PoE ports which support IEEE802.3at/at
- Wide nominal power input range: 24~110V ${ }_{\text {DC }}$
- Operating power input range: 16.8~137.5VDC
- Supports X-Ring Pro for rapid and predictable convergence
- Supports IXM for fast and easy maintenance
- Supports N-Key for quick configuration and backup
- Operating temperature: $-40 \sim 75^{\circ} \mathrm{C}$
- Provides Fast Ethernet \& Full Giga Ethernet solution

## Introduction

The EKI-9516 series Ethernet switch is designed for railway applications with rugged housing and high EMC performance. The EKI-9516 series is a suitable networking solution for rolling stock and wayside applications. It provides M12 connectors for Ethernet/ console/ relay/ power-input(M23) connections to ensure tight and robust connectivity, guarantees reliable operation against environmental disturbances, and complies with IEC61373 vibration and shock for rolling stock applications. The portfolio of the EKI-9516 series provides different options, catering to various user requirements. It provides 16-ports on different port configuration (please refer to the ordering information). With IEEE802.3af/ at PoE functionality (PoE model only), it provides up to a 150 watt power budget (depends on different input voltage, please refer to PoE Total Power Budget) for P.D. devices (such as camera, IP-phone and wireless access point). The EKI-9516 series features IP67 housing and ample pitch connectors that can easily connect/ disconnect cables without interference; reducing human errors within the harsh and narrow industrial environments.

## Specifications

## Interface

- Ethernet Port
- Console Port
- Relay Port
- Power Connector

## Physical

- Enclosure
- Protection Class
- Installation
- Dimension

M12 4pin D-coded Female for Fast Ethernet (10/100BASE-T)
M12 8pin X-coded Female for Giga Ethernet (10/100/1000BASE-T)
M12 5pin A-coded Female
M12 5pin A-coded Female with 2 relay outputs of 1 A @ 24V Vc
M23 connector

> Aluminum Die-casting
> IP67
> Wall Mount
> $254 \times 174 \times 64.5 \mathrm{~mm}(\mathrm{~W} \times \mathrm{H} \times \mathrm{D})$

## LED Display

- System LED
- Port LED

## Environment

- Operating Temperature $-40 \sim 75^{\circ} \mathrm{C}\left(-40 \sim 167^{\circ} \mathrm{F}\right)$
- Storage Temperature
$-40 \sim 85^{\circ} \mathrm{C}\left(-40 \sim 185^{\circ} \mathrm{F}\right)$
- Humidity

5~95\% (non-condensing)

## Power

- Power Consumption
- Nominal Input Voltage

17 Watts (System)

- Operating Input range 24/28/36/48/72/96/110V ${ }_{\text {DC }}$
$16.8-137.5 \mathrm{~V}_{\mathrm{Dc}}$
- Power Interruptions Class S2 (10ms) for system and PoE (system only@24V oc input)
- PoE Total Power Budget

## Certification

- Safety
- EMC
- EMS
- Shock
- Vibration
- Railway
- Fire Protection
- Other

L2 Feature

- L2 MAC Address
- Jumbo Frame
- VLAN Group
- VLAN Group
- Port Mirroring
- IP Multicast
